

Customer Journey Map – Laptop Request Management

ServiceNow-based Employee Laptop Request Process

STEPS	Become aware	Open Service Catalog	Enter request details	Submit request	Approval & processing	Track request	Laptop fulfillment	After fulfillment
INTERACTIONS	Employee learns that a laptop can be requested through the ServiceNow portal.	Employee opens the Employee Service Catalog and selects Laptop Request.	Employee enters required details such as laptop type, configuration and purpose.	Employee reviews the information and submits the request.	Request moves through the configured approval and IT processing workflow.	Employee checks the request status and receives progress updates.	IT team assigns/prepares the approved laptop and completes fulfillment.	Employee receives the laptop and the request is completed/closed.
THINGS	ServiceNow portal / company communication	ServiceNow Employee Service Catalog	Laptop Request form / fields	Submit action / request record	Approval workflow / task records	Request status / notifications	Laptop / asset record / IT task	Assigned laptop / completed request
PLACES	Workplace / employee portal	ServiceNow portal	ServiceNow request form	ServiceNow portal	IT service management environment	ServiceNow portal	IT / workplace	Employee workplace
PEOPLE	Employee	Employee	Employee	Employee / approver	Approver / IT support	Employee / IT support	IT support / employee	Employee / IT support
POSITIVE MOMENTS	Clear awareness of the available service.	Easy-to-find Laptop Request option.	Simple form with relevant fields.	Confirmation that the request was created.	Clear approval and processing flow.	Visible status reduces uncertainty.	Laptop is delivered/assigned as expected.	Employee can use the laptop for work.
NEGATIVE MOMENTS	Employee may not know where to submit the request.	Too many catalog options can cause confusion.	Missing or unclear fields can delay submission.	Errors in entered details may require correction.	Approval or processing delays may occur.	Unclear status can create repeated follow-ups.	Fulfillment delays can affect productivity.	Incomplete closure or asset information may cause issues.
AREAS OF OPPORTUNITY	Provide clear guidance to the Employee Service Catalog.	Make Laptop Request easy to discover.	Use clear, required and relevant form fields.	Validate information before submission.	Automate approvals and IT tasks where possible.	Provide clear request status and notifications.	Track laptop/asset assignment through ServiceNow.	Provide confirmation and maintain complete records.
GOALS & MOTIVATIONS	Help me know where to request a laptop.	Help me find the correct service quickly.	Help me provide all required information.	Help me submit the request without errors.	Help me get approval and processing quickly.	Help me know what is happening with my request.	Help me receive the laptop on time.	Help me start/continue work with the assigned device.

SCENARIO: Requesting, approving, tracking, and fulfilling a laptop through ServiceNow.
